

OTHER PARTNERSHIPS DIASPORA

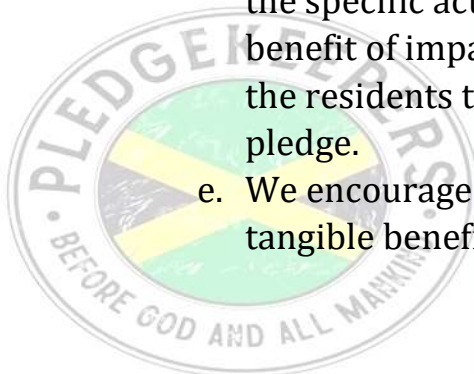

Jamaica is a small nation with a very extended reach. We have Jamaicans in almost every nation of the world and their impact if help in one way or another. Wherever the promises contained in our nation a pledge is yours and you are not absolved from its duties and obligations.

Yuh inna different culture
But yuh gotta face di truth
Bakra caan disconnect you
From foundation of yuh youth

In other words, the pledge is still actively your obligation and you can either be a vow breaker or a pledgekeeper.

See ABOUT PLEDGEKEEPERS to understand how this movement will change the culture of Jamaica, our schools and restore our international image of which you are so very conscious. This is how you can participate and also proactively and joyously fulfill your obligations under the national pledge:

- a. Start a pledgekeepers club in your current nation of residence by community and utilize this a means of strengthening each other and promoting brotherhood.
- b. Utilize our materials for family devotions and to instruct yourself in the tenets and your children
- c. Consider fundraising events to empower the pledgekeepers movement locally as we mobilize service and brotherhood and instruct peace, diligence, justice, generosity, honesty and impact lifestyle
- d. We encourage you to support your community of birth intervention projects through local clubs with the tangible benefit of the having the specific activity service and brotherhood done but and the added benefit of impact of the community and the nation of empowering the residents to proactively and consciously engage and fulfill their pledge.
- e. We encourage you to support your alma-mater school clubs with the tangible benefit of direct support of students through student-to-

student intervention. This has multiple benefits: You assist students to partialize their pledge and make them responsible future citizens and contributors to our nation; you help the school improve its general performance and help arrest the negative behaviors of our students through the positive empowerment in our pledge.

Pledgekeepers offers perhaps the only opportunity of giving that has a direct impact on the target of the gift, and the added impact of school empowerment, community impact and national cultural impact with each gift. Your giving makes the pledge come alive but awakes the pledgekeeper in the conduits.
